Safe Harbor Statement

This presentation contains forward-looking statements that reflect our current views with respect to, among other things, our [service offerings and product features]. Forward-looking statements include all statements that are not historical facts. In some cases, you can identify these forward-looking statements by the use of words such as “outlook,” “believes,” “expects,” “potential,” “continues,” “may,” “will,” “should,” “could,” “seeks,” “predicts,” “intends,” “trends,” “plans,” “estimates,” “anticipates,” or the negative version of these words or other comparable words.

The forward-looking statements contained in this [presentation] are based on our current expectations and are not guarantees of future performance. There can be no assurance that our expectations, beliefs and projections will result or be achieved. Such forward-looking statements are subject to various risks, uncertainties, assumptions or changes in circumstances that are difficult to predict or quantify. Important factors that could cause actual results to differ materially from those indicated by the provided forward-looking information include risks and uncertainties relating to: [(1) the impact of COVID-19; (2) the effects of competition; (3) changes in business plans; and (4)] other factors discussed in documents ZoomInfo Technologies Inc. has filed, or may file from time to time, with the United States Securities and Exchange Commission. Each forward-looking statement contained in this [presentation] speaks only as of the date of this [presentation]. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.”

Agenda

1

WebSights Setup

2

Target Accounts & Account Fit Score

3

Email, Calendar, Hubspot CRM & Slack Integrations

4

Next Steps

Email, Calendar, Hubspot CRM & Slack Integrations

Email

Make Signals actionable right away with emails inside ZoomInfo Sales.

- Connect with Gmail or Microsoft 365
- Use AI Emailer to generate dynamic detailed emails
- See email activity and track replies on Company feeds

Calendar

View a complete timeline of interactions with companies.

- Connect calendars from Google or Microsoft 365
- See calendar activity on Company feeds

Slack

Receive Breaking Alerts from Zoominfo directly to Slack.

- Admins can add Slack channels to receive all company alerts (optional)
- Users can install the ZoomInfo App for Slack to get their own DM alerts

WebSights, Target Accounts, & AFS

WebSights & Ranking

Supports Copilot Signals and real-time insights based on companies visiting your website.

- Rank your pages based on importance as High, Medium, or Low

Target Accounts

Get ZoomInfo updates and recommendations on accounts owned by and most relevant to your users.

- Upload a CSV of accounts and who is responsible for them
- Users can manually remove/add their own Target Accounts

Account Fit Score (AFS)

Score potential customers based on your current customer-base.

- Upload a CSV of current customers or those that fall into your ideal customer profile
- At least 100 companies are needed to generate a scoring model

DMARC

Green.

	Test	Result
✔	DMARC Record Published	DMARC Record found
✔	DMARC Policy Not Enabled	DMARC Quarantine/Reject policy enabled
✔	DNS Record Published	DNS Record found

Your email service provider is "Microsoft Office" Need Bulk Email Provider Data?

Yellow.

	Test	Result	
!	DMARC Policy Not Enabled	DMARC Quarantine/Reject policy not enabled	More Info
✔	DMARC Record Published	DMARC Record found	
✔	DNS Record Published	DNS Record found	

Red.

	Test	Result	
✖	DMARC Record Published	No DMARC Record found	More Info
✖	DNS Record Published	DNS Record not found	More Info
!	DMARC Policy Not Enabled	DMARC Quarantine/Reject policy not enabled	More Info

Domain Message Authentication Reporting and Conformance (DMARC) is an email authentication protocol that allows senders and receivers to identify email traffic authenticity. It verifies that a sender is validated with SPF & DKIM.

DMARC lets the senders specify how to handle emails not authenticated using SPF or DKIM. Senders can route those unauthorized emails to the spam folder or block them outright. By doing this, ISPs can better identify spammers and prevent malicious email from attacking client inboxes while minimizing false positives and providing better authentication reporting.

DMARC Check

- Navigate to MXtoolbox.com.
- Enter your domain in the search bar.
- Click the “MX Lookup” button.
- Review the results in the DMARC table.

GREEN: All green checks means the client is in good shape. They have a DMARC and a policy.

YELLOW: This yellow indicator is a warning that the client doesn’t have a policy enabled. They are meeting basic compliance by having a DMARC, but improvements can be made to their deliverability by adding a policy.

RED: If the indicator is red, that means they do not have a published DMARC record and need to set it up.

Your Onboarding Blueprint

	Stage 1	Stage 2	Stage 3
	Kickoff Call	**Technical Launch**	**Admin User Training**
Prework		☑ Configure Slack, Email and Calendar ☑ Configure Websights	☑ CRM Integration, AFS complete ☐ Review Intent topics
Outcomes	☑ Relationship KO ☑ Deployment Planning	☑ CRM Connect, Import, Export Setting ☑ Enable Target Accounts and AFS	☐ Target Accounts, Buying Group(s), Intent ☐ Review AI Emailer

Admin User Training:

Working Session agenda

- ❑ Review Target Accounts
- ❑ Setup Buying Groups
- ❑ Leveraging Intent Signals
- ❑ Utilizing Ai Emailer
- ❑ Enable Ai Dialer
- ❑ Plan, schedule, and set agenda for End User Training

Your Onboarding Blueprint

	Stage 1	Stage 2	Stage 3	Stage 4	Stage 5	Stage 6
	Kickoff Call	**Technical Launch**	**Admin User Training**	**Milestone Review**	**End User Training**	**Adoption Phase**
Prework		☐ Configure Slack, Email and Calendar ☐ Configure Websights	☐ CRM Integration, AFS complete ☐ Review Intent topics	☐ Integrations, Admin portals setup complete	☐ End users provisioned ☐ Chrome extension download	☐ All users trained
Outcomes	☐ Relationship KO ☐ Deployment Planning	☑ CRM Connect, Filtering, Export Setting ☑ Enable Target Accounts and AFS	☐ Target Accounts, Buying Group(s), Intent ☐ Review AI Emailer	☐ Review onboarding progress ☐ Plan user launch	☐ Signals, Emailer configuration for end users ☐ Feature training	☐ Adoption Planning ☐ Metrics Review

Recommendations & Support

Webinars

Level up your learning with weekly live webinars, on-demand courses, and ZoomInfo platform certifications.
